LIST OF CONTENTS

VOLUME 8

NUMBER 1

C.S. Lim, B.J. Mehigan, J.E. Hartley, J.R.T. Monson — 1 — Neoadjuvant therapy in the treatment of high risk rectal carcinoma

Julie Iddon, Ged Byrne, Nigel J. Bundred — 13 — Bone metastasis in breast cancer: the role of parathyroid hormone related protein

George H. Sakorafas, Adelais G. Tsiotou — 27 — Occult breast cancer: a challenge from a surgical perspective

Oliver F. Bathe, Ioannis G. Kaklamanos, Frederick L. Moffat, Jodeen Boggs, Dido Franceschi, Alan S. Livingstone — 35 — Metastasectomy as a cytoreductive strategy for treatment of isolated pulmonary and hepatic metastases from breast cancer

43 — Book Reviews

NUMBER 2

Rache M. Simmons, Michael P. Osborne — 55 — The evaluation of high risk and pre-invasive breast lesions and the decision process for follow up and surgical intervention

Toncred Marya Styblo, William C. Wood — 67 — The management of ductal and lobular breast cancer

V. Suzanne Klimberg, MD, Steve Harms, MD, Soheila Korourian, MD — 77 — Assessing margin status

Hiram S. Cody III, Patrick I. Borgen — 85 — State-of-the-art approaches to sentinel node biopsy for breast cancer: Study design, patient selection, technique, and quality control at Memorial Sloan-Kettering Cancer Center

Antonio C. Wolff, Matin D. Abeloff — 93 — Adjuvant systemic management of early stage carcinoma of the breast

Nuhad K. Ibrahim, Gabriel N. Hortobagyi — 103 — The evolving role of specific estrogen receptor modulators (SERMs)

125 — Facts and Faces

NUMBER 3

Matthew D. Barber, James A. Ross, Kenneth C.H. Fearon — 133 — Cancer cachexia

Stephanie A. Schwartz, Ambrosio Hernandez, B. Mark Evers — 143 — The role of NF-κB/IκB proteins in cancer: implications for novel treatment strategies

Jonathan B. Koea, James H.F. Shaw — 155 — Parathyroid cancer: biology and management

167 — Book Reviews

177 — Facts and Faces

NUMBER 4

	181	Editorial
Vernon K. Sondak, Vincent M. Cimmino, Lori M. Lowe, Derek A. Dubay, Timothy M. Johnson	183	Dermatofibrosarcoma protuberans: what is the best surgical approach?
Brian L. Samuels	191	Management of recurrent desmoid tumor after surgery and radiation: role of cytotoxic and non-cytotoxic therapies
Andrew L. Folpe	197	Practical applications of immunohistochemistry in the diagnosis of soft tissue neoplasms
John M. Kane III, John F. Gibbs, Brian E. McGrath, Thom R. Loree, William G. Kraybill	205	Large, deep high-grade extremity sarcomas: when is a myocutaneous flap reconstruction necessary?
Fritz C. Eilber, Jeffery J. Eckardt, Gerald Rosen, Scott D. Nelson, Michael Selch, Frederick R. Eilber	211	Large, deep, high-grade extremity sarcomas: treating tumors of the flexor fossae
Martin R. Weiser, Jonathan J. Lewis, Denis H.Y. Leung, Murray F. Brennan	215	Management of small, high-grade extremity soft tissue sarcoma
R.E. Pollock, B.W. Feig, P.W.T. Pisters	219	Resectable recurrent extremity sarcomas: is there a role for re-irradiation?
	223	Facts and Faces
